## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 2-10,13-20, drawn to key authorization in a network, classified in class 726, subclass 4.
  - II. Claims 11-12, drawn to method of setting gamma tables, classified in class 345, subclass 581.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. The key authorization in claims 2-10,13-20 apart from being used with inventions of claims 11-12 in that it can be implemented in many different aspect of network security such as network data access control, management,usage control or key/password authentication. Invention II could be used in field of graphic processing or visual display system. Because these inventions are distinct for the reasons given above and acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated as proper. These two separate classifications is an indication or burden on the examiner as reason stated above.
